

to whom it may concern,I have had My XM radio for almost 9 months now, It's a way of life for me and anyone who regularly travels with me, (I travel from Hayden lake Idaho to Seattle Washington on a regular basis) with out XM radio I would have to deal with changing stations or dealing with cd's. With XM I can set it to one of my favorite stations and not touch it the rest of the way... It works great everywhere. Another reason I love my XM radio is due to the geographical area I live in, It's very hard to keep a signal with regular FM radio, With XM I have CD quality audio 99.9% of the time (and that's great). In the almost 9 months I have never called XM for anything (I activated over the internet, the \$9.99 MRC is pulled from my checking account) I have never had any problems with their service or equipment. The fact that NAB is trying to limit them on their services is going against what the USA believes in, the constitution, by allowing the National Association of Broadcasters to dictate what I am permitted to hear it going against the 1st amendment.

I am a firm believer of the freedom of speech and I say that XM listeners pay for these services and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear.

I Strongly Urge the FCC to Reject the NAB's petition 04-160!

I support XM radio and their ability to provide the kind of programming that I/We demand and deserve. FM radio can not compete with XM! FM has the same old boring Top 40/The most hip/trendy audio but not the stuff for the people who actually like to listen to great audio programming.

"Beyond AM, Beyond FM" Its XM Radio and It's Here to stay

Thank You,
Justin T. Stockton
XM Radio Supporter
